Booth #439

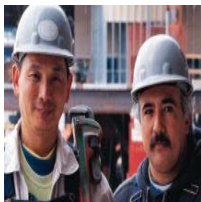

At these shows, we will debut our Quick Brick products and the new distributorship program to the Dallas/ Ft. Worth market. Come and support us as we compete for the NARI *MOST UNIQUE PRODUCT* for 2003.

### ***What can you do to protect your future this year and in the years ahead?***

***Let's explore some options...***

**Work for someone else?** Get a good, secure job and trade your "hours for dollars". With the recent down turn in the economy, a good job with security no longer exists – it's just a myth! From blue collar to corporate, no one is immune.

*"We're working more hours to be paid less money!"*

*Nine out of ten graduates don't work in the field in which they majored!!!*

**Become a Professional?** Invest \$50,000+ in a college education to secure your place in the job market. Does the cost of college pay off? A report by USA Today indicates:

- 51 % of executives fear losing the jobs because of downsizing
- 24% of executives fear career burnout
- 10% of executives fear being fired

**Look Forward to Retirement?** The Golden Years – How golden will yours be? Are you waiting for your 401K, pension plan, or Social Security to take over. According to the Bureau of Labor Statistics, many people, after working 40 years, retire in poverty. If you plan to retire at age 65 and anticipate living until you are 85, saving \$250,000 will allow you a fixed income of only \$12,000 a year! Will your current plan give you more than that? Maybe you should be look at becoming a Quick Brick Distributor.

**Want a better way?...Profits are better than wages!**

***Check Out Our Business Opportunity!***
